

# THE HIGH LEVEL PRIVACY CONCLAVE

Dear Sir/ Madam,

Privacy India in partnership with the International Development Research Centre, Canada, Society in Action Group, Gurgaon and Privacy International, UK is organizing the High Level Privacy Conclave at the Paharpur Business Centre, Nehru Place Greens in New Delhi on Friday, February 3, 2012.

Since June 2010, Privacy India has been engaging in discussions with policy makers, the public and sectoral experts about privacy in India. The discussions have ranged from topics of identity and privacy, to minority rights and privacy, and consumer privacy. The findings of our research show that privacy was a neglected area of study in India during the past, however, this is changing. Advancements in technology, the introduction of e-governance initiatives like the National Fibre Optic Network, introduction of new legislations, and debates surrounding national security, have brought privacy debates to the forefront in India. Although currently sectoral legislation deals with privacy issues, e.g., the Telegraph Act or RBI guidelines for banking, India has just begun to consider a horizontal legislation that deals comprehensively with privacy across all contexts. This conference is an opportunity to look forward to what could be the future scope of privacy in India.

Privacy India was set up in collaboration with the Centre for Internet and Society (CIS), Bangalore and Society in Action Group, Gurgaon, under the auspices of an international organization 'Privacy International'. Privacy International is a non-profit group that provides assistance to civil society groups, governments, international and regional bodies, the media and the public in a number of countries. For more info visit its website, [www.privacyinternational.org](http://www.privacyinternational.org). This is a closed-door meeting.

For participation get in touch with Elonnai ([elonnai@cis-india.org](mailto:elonnai@cis-india.org))

Sincerely,

Elonnai Hickok

# ALL INDIA PRIVACY SYMPOSIUM

Dear Sir/ Madam,

Privacy India in partnership with the International Development Research Centre, Canada, Society in Action Group, Gurgaon, Privacy International, UK and Commonwealth Human Rights Initiative is organizing the All India Privacy Symposium at the India International Centre, New Delhi on Saturday, February 4, 2012.

Since June 2010, Privacy India has been engaging in discussions with policy makers, the public and sectoral experts about privacy in India. The discussions have ranged from topics of identity and privacy, to minority rights and privacy, and consumer privacy. The findings of our research show that privacy was a neglected area of study for India in the past, however, this is changing. Advancements in technology, the introduction of e-governance initiatives like the National Fibre Optic Network, the introduction of new legislations, and debates surrounding national security, have brought privacy debates to the forefront in India. Although currently sectoral legislation deals with privacy issues, e.g., the Telegraph Act or RBI guidelines for banking, India has just begun to consider a horizontal legislation that deals comprehensively with privacy across all contexts. This conference is an opportunity to look forward to what could be the future scope of privacy in India.

Privacy India was set up in collaboration with the Centre for Internet and Society, Bangalore and Society in Action Group, Gurgaon, under the auspices of an international organization 'Privacy International'. Privacy International is a non-profit group that provides assistance to civil society groups, governments, international and regional bodies, the media and the public in a number of countries.
