Cyber Fears: What scares digital Natives and those around them

Blogathon

Societies around the world are quickly digitising

...Twitter....

...Facebook...

...Wireless accesible everywhere...

"Digital Natives"

are those who have figured how to use these technologies to their full potential

But even they have real fears.

If you are a Digital Native, are related to one or work with/alongside with one come

share your fears with us!

Blogathon: Many people bloging together at the same time on a shared topic

Date: Monday April 18th, 2011
