LAUNCH EVENT

AI: A Full Spectrum Regulatory Challenge

A POLICY BRIEF BY SUNIL ABRAHAM

September 27, 2019 | 6:30 pm to 7:30 pm

Venue | **Viceregal, The Claridges**

This policy brief proposes a granular, full spectrum approach to the regulation of AI depending on who is using AI, who is impacted by that use and what human rights are impacted. This approach stands in contrast to approaches of ethics, omnibus law, homogeneous principles, and human rights, which will result in inappropriate under-regulation or over-regulation of the sector.

Speaker

SUNIL ABRAHAM

Executive Director, Centre for Internet and Society

Discussant

UJWALA UPPALURI

Lawyer & Fellow, Centre for Communication Governance
at National Law University Delhi

The discussion is being hosted by the Centre for Communication Governance at National Law University Delhi and the Centre for Internet and Society and is supported by the Friedrich Naumann Foundation for Freedom.
