Global Commission on the Stability of Cyberspace
Cyberstability Hearings, Tuesday 21 November 2017
Room "Mumtaz Mahal," Taj Diplomatic Enclave Hotel, New Delhi
Draft Agenda (version 0.9)

09:00-10:00 **Welcome Remarks & Overview of the Work of the Commission**

Briefing on the Commission's work on the (i) norm to protect the public core of the Internet and (ii) the GCSC Proclamation on the Stability of Cyberspace[1], followed by a discussion with participating governments from the Government Advisory Board.

10:00-11:00 **Cyberstability Hearing I: Public Core of the Internet**

During this session, two researchers from the Research Advisory Group will present the findings of their research. Each presenter will give a presentation of 10 minutes, followed by a Q&A with the Commissioners.

Presenters:
- Joanna Kulesza, Assistant Professor, Lodz University, Poland
- Oluwafemi Osho, Department of Cyber Security Science, Federal University of Technology, Minna.

Following the questioning by the Commissioners, the Chair may open the floor to a wider discussion on either the research presentations, or the Public Core norm document itself.

11:00-11:30 **Coffee break**

11:30-12:30 **Cyberstability Hearing II: International Peace and Security in Cyberspace**

During this session, two researchers from the Research Advisory Group will present the findings of their research. Each presenter will be able to give a presentation of 10 minutes, followed by a Q&A with the Commissioners.

Presenters:
- Alex Grigsby, Independent researcher
- Max Smeets, Cybersecurity fellow at Stanford University Center for International Security and Cooperation

Following the questioning by the Commissioners, the Chair may open the floor to a wider discussion on either the research presentations, or the GCSC Proclamation on the Stability of Cyberspace document itself.

12:30-12:45 **Concluding remarks**

12:45-13:30 **Lunch**

---
