**The Global Nature of Cybersecurity in a Changing World**
*Cyber Initiative Annual Convening*
*June 20-22, 2019*

**AGENDA**
**Dress: Casual**

Cybersecurity knows no borders and is not limited to any one geography or culture.  The challenges and opportunities facing cybersecurity experts, policymakers and the public are global in nature and require globally-minded solutions at all levels. At the same time, rapid changes in technology have a direct impact on societies around the world and the changing threat environment. The Hewlett Foundation's 2019 Cyber Initiative Grantee Convening will focus on two pillars: (1) the global nature of cyberspace and (2) emerging technology challenges and solutions. We will come together to share our work in this space and identify opportunities for meaningful collaboration.

# Thursday, 20 June
*Venue- La Valencia, 1132 Prospect St, La Jolla, CA 92037*
- 6/20- Check-in time is 4:00PM (earlier check-ins are subject to availability)
